

CALL FOR PAPERS

EUROFM RESEARCH SYMPOSIUM 2023

The EuroFM Research Network is meeting for the 22nd time in November 2023! The theme of the symposium is 'Shaping the next generation of FM'. You are welcome to submit your research proposal for the symposium and contribute to shaping the future of FM. The EuroFM network encourages both academic and professional researchers to submit their full or short research papers to the review process.

EUROFM RESEARCH SYMPOSIUM MEETS EUROFM CONFERENCE!

After several pandemic years, Research Symposium is again joining efforts with the main EuroFM conference. The conference brings together FM professionals, researchers and educators seeking knowledge, ideas, and solutions on the 9th-10th November 2023 in Istanbul, Turkey!

GUIDELINES FOR FULL AND SHORT PAPERS

EuroFM strives for high-quality open access research. In 2023, the research symposium has two paper types: full papers (10-12 pages) and short papers (5-6 pages). The context of the papers is the same and all the papers go through the double-blind peer review process. Accepted papers will be part of the conference proceedings and presented at the symposium.

Key Dates

| | |
|----------------|---------------------------------------|
| 09 Feb 2023 | DL for abstracts |
| 03 May 2023 | DL for paper submissions |
| 07 June 2023 | Reviews to the authors |
| 06 Sep 2023 | DL for revised papers |
| 27 Sep 2023 | Final decision on paper acceptance |
| 11 Oct 2023 | DL for camera-ready papers |
| 08-11 Nov 2023 | EuroFM Research Symposium in Istanbul |

SUBMISSIONS

Please submit your abstract including all the authors and their email addresses and indicate the corresponding author via email to tuuli@eurofm.org. After the abstract acceptance, you will receive practical information for the next steps.

If you have any further questions, please don't hesitate to contact the organising committee. We are looking forward to your submissions and interest in EuroFM Research Symposium 2023!

Abstracts

Make sure that the abstract is no longer than 300 words. Please use the following abstract format:

Title – Informative and attractive title containing the main message of your research.

Authors – List of all authors and their affiliations and contact details. Please indicate, who is the corresponding author.

Background and aim – Present your research motivation and research aim.

Methods / Methodology – Present briefly the used research methods/approach to answer the aim.

Results – Present your main research findings.

Originality (if applicable) – Indicate the novelty of your research in science.

Practical or social implications – Identify the (potential) implications for practice.

Keywords – 4-7 key concepts or words.

Type of paper – Please indicate if your paper is a research paper, technical paper, viewpoint paper or an educational paper.

TYPES OF PAPERS

Research paper – Focuses on scientific advancement of the field. Includes strong theoretical foundation.

Technical paper – Focuses on process and results of the research. Often referred as applied research and produced by/for an organisation.

Viewpoint paper – Focuses on key challenges, issues, and developments in FM. May provide authors' viewpoint backed with references.

Educational paper – Focuses on the principles and practices in FM education. Encourages novel approaches to teaching and learning.

We look forward to your submissions!

On behalf of the EuroFM research network,
Dr. Tuuli Jylhä
Dr. Vitalija Danivska
