

CALL FOR PAPERS

EUROFM RESEARCH SYMPOSIUM 2024

The EuroFM Research Network is meeting for the 23rd time in June 2024! The theme of the symposium centers around transformation to contribute to future-proof Facility Management (FM). We invite you to submit your research proposal for the symposium and be a part of the FM transformation. The EuroFM network encourages both academic and professional researchers to submit their full or short research papers for the review process.

GUIDELINES FOR FULL AND SHORT PAPERS

The 23rd EuroFM Research Symposium is arranged jointly with the EuroFM conference 2024. The joint effort brings together FM professionals, researchers, educators, and students seeking knowledge, ideas, and solutions on the 10th-12th June 2024 in London, UK!

Key Dates

08 Dec 2023	DL for abstracts
07 Feb 2024	DL for paper submissions
28 Feb 2024	Reviews to the authors
27 March 2024	DL for revised papers
08 May 2024	Final decision on paper acceptance
22 May 2024	DL for camera-ready papers
10-12 June 2024	EuroFM Research Symposium 2024 in London

SUBMISSIONS

Please submit your abstract including all the authors and their email addresses and indicate the corresponding author via email to tuuli@eurofm.org. After the abstract acceptance, you will receive practical information for the next steps.

If you have any further questions, please don't hesitate to contact the EuroFM Research Chair at tuuli@euroFM.org. We look forward to receiving your submissions for the EuroFM Research Symposium 2024!

Abstracts

Make sure that the abstract is no longer than 300 words. Please use the following abstract format:

Title – Informative and attractive title containing the main message of your research.

Authors – List of all authors and their affiliations and contact details. Please indicate, who is the corresponding author.

Background and aim – Present your research motivation and research aim.

Methods / Methodology – Present briefly the used research methods to answer the aim.

Results – Present your main research findings.

Originality (if applicable) – Indicate the novelty of your research in science.

Practical or social implications – Identify the (potential) implications for practice.

Keywords – 4-7 key concepts or words.

Type of paper – Please indicate if your paper is a research paper, technical paper, viewpoint paper, or an educational paper.

TYPES OF PAPERS

Research paper – Focuses on scientific advancement of the field. Includes a strong theoretical foundation.

Technical paper – Focuses on the process and results of the research. Often referred to as applied research and produced by/for an organization.

Viewpoint paper – Focuses on key challenges, issues, and developments in FM. May provide authors' viewpoint backed with references.

Educational paper – Focuses on the principles and practices in FM education. Encourages novel approaches to teaching and learning.

We look forward to your submissions!

On behalf of the EuroFM Research Network,

Dr. Tuuli Jylhä, Research Chair, EuroFM.

Dr. Vitalija Danivska, Conference Chair, EuroFM.

Maria Morapedi, Chair of the local organizer, AfricaFM and FMCE Founder.
