Thjeme: Foundations and Frontiers

The EuroFM Conference is one of Europe's respected meeting points for facility management practitioners, researchers, educators, students and industry stakeholders.

The 31st EuroFM Conference and the 25th EuroFM Research Symposium will feature educational sessions, panel discussions, workshops and research presentations, all focused on advancing the built environment and the workplace of the future.

Taking place from 18 to 20 February 2027 in Kufstein, Austria, the conference is organised by EuroFM in association with FH Kufstein Tirol, with the support of FMplus (IFMA Switzerland and GEFMA).

Event Highlights

The EuroFM Conference and EuroFM Research Symposium are among EuroFM's key annual activities. Each year, they bring together facility management professionals, academics, educators and students to exchange knowledge, share new insights and strengthen collaboration across the sector.

The 2027 programme will include conference panels, workshops, research paper presentations, a student competition, a gala dinner and a variety of networking and side meetings, including the one-day FMplus Track.

With more than 300 delegates expected from Austria, across Europe and beyond, the EuroFM Conference offers sponsors a valuable opportunity to connect with a highly relevant international audience of facility management professionals, decision-makers, researchers and future talent.

Become a sponsor

The EuroFM Conference presents a prime opportunity for sponsors. In collaboration with FMplus, the event focuses on advancing Facility Management in a European context. We also have opportunities to sponsor our side events like the Welcome Reception, Gala Dinner and Student Challenge. Please contact us to discuss possible solutions to showcase your organisation. For partnership opportunities email us via niels@eurofm.org.
